

The Right Connection®

Introducing FloTech FT590 Series Terminal Test Equipment

NEW

FT590TG

FT590OG

Application:

Used to verify performance of terminal overfill monitors and read the Trailer Identification Modules (TIM).

Features:

- Rack monitor testers and mini trailer overfill system have the same API compatible signals.
- When connected to the API plug will cause the Terminal Overfill Monitor to switch permissive.
- Tester contains a liquid level sensors, API compatible socket, Ground bolt and TIM module all rewired into one unit.
- FloTech FT530 is a self contained microprocessor capable of reading the serial number embedded into the TIM located in the trailer socket. This tester will verify operation and display the unique serial number you need to enter into the terminal automation system.

Part #	Description
FT590TG	rack tester thermistor with ground bolt
FT590TGT	rack tester thermistor with ground bolt and TIM
FT590OG	rack tester optic with ground bolt
FT590OGT	rack tester optic with ground bolt and TIM
FT530	TIM reader
