DATA SHEET

Dixon Brass Twist Spray Nozzle

Easy to use hose nozzle with water jet and spray discharge capabilities and ideal for a range of domestic and industrial applications.

Features
- Easy to use twist operation hose nozzle capable of both Jet and Spray discharge
- Overall length 132mm

Materials
- Brass body and stem with Nitrile rubber

Connection
- 1 ½" BSPF inlet connection

Specifications
- Working Pressure 1600kPa
- Test Pressure 2400kPa

Part Number
- HRS040B

Pressure	Jet Range	Jet Flux	Spray Angle	Spray range	Spray Flux
400 kPa	16m	130L/min	135°	3.5m	188L/min
600 kPa	19m	163L/min	135°	4m	233L/min
