

## Vapour Valves

<b>Application:</b>	4" TTMA flange With air interlock mount (use air interlock 5000AIV if required)
<b>Design:</b>	Bulb designed for maximum vapor flow (low resistance) for fast loading of tankers. With angled acrylic sight glasses (2) and drain plug, allows viewing and drainage of fluids if in system
<b>Material:</b>	Quality cast aluminium construction

Part No.	Price \$
VR4000	657.53

Price Group: BY  
AS02

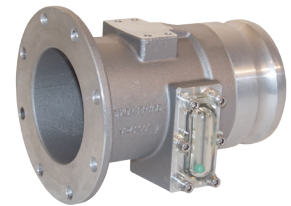

## Vapour Return Valves

<b>Application:</b>	Allows easy seal replacement while still on tanker
<b>Design:</b>	4" Adaptor with poppet valve, 4" TTMA connection
<b>Material:</b>	Heavy duty cast aluminium body

Part No.	Price \$
VR4100	442.66

Price Group: BY  
AS02

## Vapour Recovery Vent - Sequential Air Operated

<b>Application:</b>	Dixon Bayco™ Vapour Recovery Vents are designed for use on road tankers specifically set up for bottom loading applications to allow adequate venting during loading or unloading.
<b>Features:</b>	<ul style="list-style-type: none"> <li>• May be installed to operate in sequence with other pneumatically controlled devices such as emergency valves and guard bar interlocks, or open independently by simply plugging the air out port.</li> <li>• Inward opening poppet ensures compartment pressure is maintained and product retention during transit.</li> </ul>
<b>Design:</b>	Designed to interchange with other brands commonly found in the Australian market. Mounts direct to manholes or tanker walkways.
<b>Material:</b>	Aluminium construction, Acetal Guides, S/S Piston & fasteners, Baylast™ seals and cork/buna gasket
<b>Fuel Compatibility</b>	Biofuel vapour compatible up to E100 (100% Ethanol) and B100 (100% Biodiesel). For detailed fuel compatibility please consult your nearest Dixon™ offices.

Part No.	Description	Price \$
DBVR6410	Vapour Vent, sequential operation c/w gasket and fasteners	1024.02
DBVR6410-12	Cork Buna flange gasket to suit DBVR6410	13.50
DBVH090	Vapour Vent Hose 90 x 101mm x 1.0 metre length	199.65
