Cen-Stat Stainless Steel Static Grounding Clamps

NEW!

Application:	<p>Medium Duty Clamps Recommended for use in processes using drums, containers, solvent safety cans and mixing vessels of 100 litre capacity or less in situations where space does not permit the use of heavy duty clamps. Jaw opening diameter of 15mm.</p> <p>Heavy Duty Clamps Recommended for grounding large equipment ranging from 100 litre drums to 2000 litre IBCs, mixing vessels and mobile tanks. Jaw opening diameter of 40mm.</p>
Features:	Provides a robust and long-life solution in harsh operating environments. The clamps are supplied in two sizes and are specified based on the operating environment and the size of the equipment to be grounded.

Part No.	Description	Price \$
VESX45	Medium duty stainless steel grounding and bond clamp	336.18
VESX90	Heavy duty stainless steel static grounding clamp	435.80
