# DATA SHEET TTMA Sightglass Flange

Dixon offers a TTMA sightglass flange which allows for visual identification of the product prior to the opening of the API valve. The TTMA pre-drilled holes are to standard so the unit will fit behind an API adaptor as well as a Dixon butterfly valve.

## **Application**

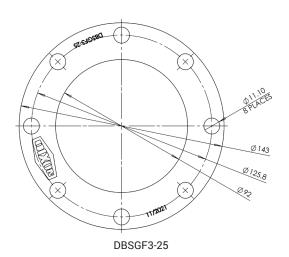

For use with API adaptors and TTMA flanged butterfly valves commonly found on tank trucks.

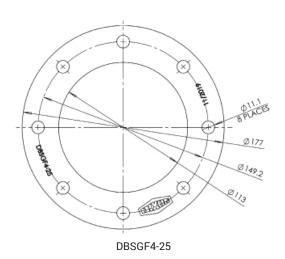

#### Material

Acrylic

## **Specifications**

- · Maximum pressure: 1000 kPa
- Maximum temperature: 70°C (158°F)
- · Fully machined to precise tolerances
- · Batch marked for traceability

Part	Description	OD mm	ID mm	Thickness mm	Holes mm
DBSGF3-25	TTMA sight glass flange, 3" TTMA x 25mm	143	92	25	8 x ø11 on 125.8 PCD
<u>DBSGF4-25</u>	TTMA sight glass flange, 4" TTMA x 25mm	177	113	25	8 x ø11 on 149.2 PCD
