Brewing Product Range

1300 134 651 | dixonvalve.com.au

Brewing **Product Range.**

Over the past 15 years, we have provided breweries with a range of hygienic flow products focused on a maximum level of safety, high quality, and reliability. Every fitting, pump, valve, or component is built to last longer, perform better, and reduce the risk of contamination. We also provide a full range of made-to-order hose assemblies that are tested and certified, as well as couplings, clamps, and ferrules for a fully integrated and safe assembly.

With an unsurpassed reputation as a premier manufacturer and supplier of hygienic fluid transfer products for a wide range of applications, we are committed to providing value added services, exceptional customer service, technical support and training to the brewing industry. Our global distribution footprint enables us to efficiently serve our brewing customers with the right flow products at the right time.

To achieve maximum beer quality, your brewing process must be efficient and reliable. We supply all the technical flow products you need to brew a good beer.

We have a product specialist that can help you with technical support and training.

Centrifugal Pumps

BC/BP-Series

MB100-Series

ExD-Series

Applications

- Unloading
- Transfer
- CIP supply

Materials

- 316L
- Buna-N, EPDM, silicone, and FKM elastomers

Features

- Wet ends, motor pump units, and carts
- 3A certified for CIP

Sizes

- Inlet 1" to 6"
- Outlet 1-1/2" to 4"

RZL-Series Positive Displacement Pumps

Applications

- Unloading
- Fluid transfer
- Metering
- CIP supply

Materials

- 316L

Features

- Front loading seals
- Various rotor options
- 100 to 300 models stainless steel gear box standard
- 3A and EHEDG certified
- CIP certified

Sizes

- 1" to 10"

B5107 Butterfly Valve

B5107-Series

Applications

- Isolation
- Diversion

Materials

- CB5107: 316L

Sizes

- 1/2" to 8"

Features

B5107

- Various actuation and control packages
- Multiple handle options
- Seat materials: silicone, EPDM, and FKM elastomers

BV2C-Series Ball Valves

Applications

- Isolation
- Diversion
- Control

Materials

- CF8M

Sizes

- 1/2" to 4"

Features

- 5 encapsulated seat materials available
- ISO 5211 mounting pad standard
- Optional 2-way V-port seat
- Various actuation and control packages

Filtration

Applications

- Liquid filtration

Cartridge Element Options

- Melt blown
- PES
- PHE
- Carbon
- Stainless steel

Materials

- 316L

Sizes

- Port connection 1" to 4"
- Number of elements 1, 3, 5, 7, 12, and 21
- Cartridge element lengths - 10", 20", 30" and 40"

Topping Gun, Gauges, Sample Valves, Sight Glasses, and Spray Balls

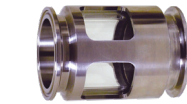

Topping Gun

Pressure Gauges

Sample Valves

Sight Glasses

Spray Balls

Swivels

Style 20

Style 40

Applications

- To rotate hose assemblies without disconnecting

Materials

- 316L
- Silicone or EPDM gaskets

Features

- Clamp or weld connection
- Available in Styles 20 through 70
- 3A certified for CIP

Sizes

- 1" to 4"

Fittings

Applications

- Wide range of connections to pipework, valves and hose along with maintenance products

Materials

- 316 Stainless Steel

Features

- Clamp or weld connection
- 3A certified for CIP

Sizes:

- 1/2" - 12" OD

Hose and Hose Assemblies

Rubber / PVC

Applications:

A wide range of suction and delivery hoses suitable for transferring beer, wine, milk and potable water

Materials:

- Rubber
- PVC

Features:

- FDA compliant and conforms to 3A sanitary standard 18-03
- Sizes available from 3/4" - 4" OD

Options:

- Rubber food and beverage delivery
- Premium food & wine suction and delivery
- Rubber foodboss, milk & beverage suction and delivery
- PVC wine & beverage suction and delivery
- Wash down steam
- Silicone for pharmaceutical applications

Crimped / Fitted Hose Assemblies

Applications:

A full range of hose assemblies for your hygienic requirements:

- Rubber food & beverage delivery hose assemblies
- Premium food & wine suction & delivery hose assembly
- Rubber foodboss, milk & beverage suction & delivery hose assembly
- PVC wine & beverage suction & delivery assembly
- Wash-down steam hose assembly

End connections Options:

- Tri-clover
- DIN
- RJT
- NZ-RJT
- Wine crimp
- SMS
- Customised ends on request

Value Add Services

Dixon offers a range of value added services for all your engineering needs, including:

- Welding Services
- Assembly Work
- Fabrication Work
- Testing and Design Services
- Machining Services
- Metal Polishing & Passivation
