Hookie Hook Hose Lifter

For Offshore Applications

Hookie – Hook Stems & Ferrules are predominantly used for Bulk Loading/Rig Supply Hose operations on off-shore applications.

Stems are supplied Yellow Zinc Plated in accordance with BS1706: 1990 as standard, with threads to API Standard 5B: 1988.

Internal Swage (IX) Ferrules can be supplied in either, natural, Yellow Zinc Plated or Powder Coat Painted finishes in accordance with UKOOA (United Kingdom Offshore Operators Association) colour coding scheme.

External Swage Ferrules are usually supplied in natural finish or yellow zinc plated.

See overleaf for Ferrule Colour Codes.
